Brothers and sisters  
All over the world  
Come together  
Boys and girls  
It don't really matter if you're black or white  
It don't even matter if you're left or right  
Its just a label they use to get us to fight  
So come together and put it aside  
So stand up and fight for love  
We can make through the mess we made  
Stand up and fight for love  
Oh we can make it to see that day

So come on people  
Free your minds  
Don't let em' keep you  
In the daily grind  
They wanna take your freedom and take your wealth  
Put you on meds to destroy your health  
Religious or not God is on our side  
So come together and do whats right  
Stand up and fight for love  
We can make it through the mess we made  
Stand up and fight for love  
Oh we can make it to see that day  
Stand up and fight for love  
You got to, you got to break the mold  
Stand up and fight for love  
You got to, got to, got to free your soul

So brothers and sisters  
You've got to come together  
It matter who you are  
Don't let them break us apart  
Stand up and fight for love  
We can make it through the mess we made  
Stand up and fight for love  
Oh we can make it to see that day  
Stand up and fight for love  
You got to, you got to break the mold  
Stand up and fight for love  
You got to, got to, got to free your soul
