If you stand for something
You can stand with me
From the hills and mountains
To the deep blue sea
And I know, one day we're gonna be free
If you stand for something
You can stand with me
All the lonely people
The sick and cold
If you ever find Jesus
He can renew your soul
Even though the false prophets run the show
If you walk with Jesus
He can save your soul

Where the grass is growing green
The river's running red
And maybe God is telling us
That our spirit has gone dead
And if you say you know fact or fiction
Then take a look around
It's all right there
In front of you

If you stand for something
You can stand with me
From the valley meadows
To the city streets
And I know one day we're gonna be free
If you stand for something
You can stand with me
Have no convictions
And have no doubts
You've got to break free from
The chains that hold you down
Cause the devil wants you stuck with fear and doubt
Have no repressions
You've gotta scream and shout

Where the grass is growing green
The river's running red
And maybe God is telling us

That our spirit has gone dead
And if you say you know fact or fiction
Then take a look around
Its all right there
In front of you
