A drink prepared from the brains of a bear and served  
in the animals skull  
Is said to produce the fury of the beast so the person  
believes it himself  
To be changed to a bear this madness remains until  
the magic wears off  
The man knows no fear for he is the one who kills  
without remorse  
Immune to poison  
Concoction is made and stirred with a bone  
No conscious thought a mindless drone  
I walk through the woods / Hunting you down /  
A gutless pig / You are defiled / With all of my might / I  
stab at thee / Ridding the world / Useless existence /  
Has come to an end / You fall lifeless / Deed is done / I  
await my penance  
I have been granted all that I needed  
To exact my revenge my end is near  
I drank the poison and it gave me the strength  
To cut off your head you bastard fuck  
Immune to Poison  
Completed act we both have died  
Your wretched life I am justified
