(Verse)

Defeated no more  
I just feel I let you go  
Been cheated, Iâ€™ve been fooled  
But youâ€™re my heart and glow gone

(Pre-Chorus)

Gotta let this fire keep burning  
â€™Cause I canâ€™t seem to let this show  
Instead of running I keep it slow  
â€™Cause I wonâ€™t let this take control

(Chorus)

Got to get it, got got to get it  
Got to get it, got got to get it on  
Got to get it, got got to get it  
Got to get it, got got to get it on

(Verse)

Defeated no more  
I still watched you take it all  
Iâ€™m healed and Iâ€™m reborn  
But my heartâ€™s taking off the cold

(Pre-Chorus)

Gotta let this fire keep burning  
â€™Cause I canâ€™t seem to let this show  
Instead of running I keep it slow  
â€™Cause I wonâ€™t let this take control

(Chorus)

Got to get it, got got to get it  
Got to get it, got got to get it on  
Got to get it, got got to get it  
Got to get it, got got to get it on

(Bridge)

I can feel it working from the last you know  
I can feel it working, but can you?  
I can feel it working from the last you know  
I know you think youâ€™re hurting but can you love?

I can feel it working from the last you know  
I can feel it working, but can you?  
I can feel it working from the last you know  
I know you thinkÂ...

Can you love?  
Can you love?  
Can you love?  
Can you love?

(Verse)  
Defeated no more  
I feel your shadow disappear  
IÂ've faded and I fought  
But now I know I make the rules

(Pre-Chorus)  
Gotta let this fire keep burning  
Â'Cause I canÂ't seem to let this show  
Instead of running I keep it slow  
Â'Cause I wonÂ't let this take control

(Chorus x3)  
Got to get it, got got to get it  
Got to get it, got got to get it on  
Got to get it, got got to get it  
Got to get it, got got to get it on

(Bridge)  
I can feel it working from the last you know  
I can feel it working, but can you?  
I can feel it working from the last you know  
I know you think youÂ're hurting but can you love?  
I can feel it working from the last you know  
I can feel it working, but can you?  
I can feel it working from the last you know  
I know you thinkÂ...

(X2)  
Can you love?  
Can you love?  
Can you love?  
Can you love?
