Oh, along us for all  
Of the big and the small  
Well, the taller they stand  
Well, the harder they fall

We live for today but we die for the next  
with blood in our veins and the air in our chest  
Oh, we step into war with our hearts on the line  
Dirt on our boots, it shakes free over time

The music, it fades, the violence slows  
The darkness, it rises, as the sun goes

Love is a distant aroma at best,  
A withering smile that's stuck deep in your vest.  
The night air it wraps its fingers around,  
Your body, it shakes from the now distant sound,  
Oh, the sound of her voice - a sweet symphony,  
Over and over until you are free.

The music, it fades, the violence slows  
The darkness arises, as the sun goes

Can you feel the new day rising,  
Climbing up the east horizon?

They controlled us  
Now we'll fight through  
Each and every one  
will start new

Well, we shall not stumble  
No, we shall not fall  
We shall not crumble  
No, we shall stay tall

Well death, it will come  
As sure as a night  
We will not run  
No, we live but to fight

With blood on our hands

And dirt on our knees  
We tear at the ones,  
We brought a disease

The music, it fades, the violence slows  
The darkness, it rises, as the sun goes

Can you feel the new day rising,  
Climbing up the east horizon?

They controlled us  
Now we'll fight through  
Each and every one  
Will start new
