

## Div "I'll Shine It For You"

Visit "[I'll Shine It For You](#)" on MotoLyrics.com

In the winters and the stormiest skies  
In the coldest where there's darkness and strife  
I'll shine it for you  
You, you  
You, you, you're dearie  
You, you  
I'll shine it for you  
You, you  
I'll shine it for you\*

Ok I'll go  
Set things right  
Make a Believer  
Let 'em know God  
See the light, help them walk right  
Help them know the truth of the Man in charge  
Power, strategies, move with identity  
Together we will shine beyond the galaxies  
You got me-man! I got you! We got the universe, we  
shine light  
Let's make it and make it right  
Let them hold their positions in their darkest times  
Not opposing, not denying, not forgettin'  
Not once where we goin'  
Flowing right and Holla some more  
Pick up the pieces and give the world a whole new Hope  
Un Homme, Un Core, Un Coeur plus fort and on  
This my home, this my hood  
This dreams my glow I say- 'tis my song  
You right, you fall, you cry, but my light will take you  
home  
Cummon

It's like that, like this  
My heart be glad with love for Integrity  
Do what is pleasing in Heaven to all beings  
On Earth, on Mars, Pluto, Venus Saturn&Jupiter  
Let nothing change your stand  
Let everything you do spell out right  
From the love played on the violin chords  
To the Bass that speaks out your voice  
Let the world see the Light in you\*

Let your lips be a fountain for plants to grow  
Nations will come to know the truth  
Thru you a celebration a heavenly bloom  
Some may be trying to get up here  
But ladders are scattered better leave a souvenir  
Be recalled, be announced, (be a) man of  
History and mind so sound  
Many be hoping to get up here  
Leave traces behind, leave a souvenir

(So many times we struggle, we fight-I tell you  
what...We win!)  
I walk that journey again no man's seen  
Felt the deepest heat no child can feel  
Still I stand  
Still I strive  
Still I beg for thee to see the light  
Still I stand  
Still I pray  
Still I wait for you to shine wid us  
Just believe  
You will see  
Why I call black pink and red for peace;  
It was love  
It was grace  
It was mercy poured out in form of a babe  
They were dumb, they tho' t they knew  
But we knew the final answer, we kept our cool  
I'm 22 am growing to 2  
Each day I get younger; my heart's a blaze!  
Just believe  
Seek the truth  
You will know what I meant after days or two  
Cummon!  
Belief!  
It's truth, love, harmony, peace, comfort, plan,  
think-straight-forward  
Life, line in God we trust, In Jesus Christ we trust  
This ma truth Cummon!Div\*
