I got a picture in black and white
I put the picture across my eyes
I'm gonna hold it up
Up to the light
Baby get worse

So shut the door, the neon sky
The operator of something wild
You got your good thing
And I'll get mine
Before baby get worse

Can you hear me calling
Calling outside
I block the comm
Baby I was underwater
Underwater

My heart was beating in, in and outta time
She can really get me gone
My heart was beating in, in and outta time
She can really get me gone

So grab your coat, put out the light
We hit the city but the city it don't mind
Made it all right
Baby get worse

I'll be the operator
I'll be the spy
I'm taking pictures until they turn out right
Then say goodnight

My heart was beating in, in and outta time
She can really get me gone
My heart was beating in, in and outta time
She can really get me gone
I never know, I never know

My heart was beating in, in and outta time
She can really get me gone
My heart was beating in, in and outta time

She can really get me gone
My heart was beating in, in and outta time
She can really get me gone
My heart was beating in, in and outta time
She can really get me gone
I never know, I never know
