This Â– this Â– this Â– this Â–  
This is the night of my life  
Yeah it's on right now  
This is the night of my life  
I'm gonna run this town  
So you already know what it is  
I partied all over the world but never like this (like this)  
This is the night of my life

We went fast  
A pocket full of cash  
So you all know where I am going  
Don't need to ask  
Call up the homies  
Where are we going tonight  
Call up some shorties tell them is going down tonight  
And we gonna party like there is no tomorrow  
I am gonna pop the bottles I am gonna do that  
Cause money ain't no problem  
I have been to London to France  
Australia to Japan  
Headed up to Rio Porto Rico  
But never like this I am just saying

[Hook]

You know the club jam packed  
Is where everybody at  
Got a couple shots  
I am gonna take it back  
A couple more right after that  
The way I am feeling  
I hope it never ends

Girl I am just saying  
Your friends and my friends should all be friends

And we could party  
Like it ain't no tomorrow  
Give money to motto  
Like I just hit the lotto  
From Ibiza To Spain... and Miami  
New York Los Angeles but I never went ( ) like this  
I am just saying

This is the night of my life
