Fall asleep with me this one last time
It doesn't matter the rhyme or reason,
This is the season for love (this is the season)

It all started out just fine (this is the season)
Nothing seemed wrong to me at the time (this is the season)
You changed so often from one day to the next,
How cold is it on that side

A is for the way
You always never cared you were never there,
Your golden touch will soon fade
But the gilded lies will always remain

And in your slumber state
I hope you dream of me and in your dreams
I hope you choke out your last dying wish
There's no tomorrow this time cause you're here
I'm gonna end it right

So fall asleep with me this one last time (I'm gonna end it right)
Just fall asleep with me
Don't fall asleep don't fall asleep don't fall asleep

Another person behind these closed doors
But in the real world you don't know me anymore
You don't fucking know me anymore

A is for the way (just fall asleep with me)
You always never cared you were never there (just fall asleep with me)
There's no tomorrow this time cause you're here (just fall asleep with me)
And I'm gonna end it right (just fall asleep with me)
