You know we had big plans and even bigger dreams
So focused on the future life's never what it seems
We're always pushing forward and never looking back
Please don't resent the passion we take it to extremes
Cause in the end it's never said and done (in the end
it's never said)

Everything my life has meant to me
I would give it all away to hear you say (give it all away
to hear you say)
It's our chance to be I'm sure that you'll agree
I would give it all away for the chance to hear you say
I'll stay

We've taking both our hearts and swoon them to our
sleeves
This bond has formed between us we're bursting at the
seams
We know this won't come easy it's just you and me
They might resent the passion but we say what we
believe
Cause in the end it's never said and done (in the end
it's never said)

Everything my life has meant to me
I would give it all away to hear you say (give it all away
to hear you say)
It's our chance to be I'm sure that you'll agree
I would give it all away for the chance to hear you say
I'll stay

In the end it's never said and done

Everything my life has meant to me
I would give it all away to hear you say (give it all away
to hear you say)
It's our chance to be I'm sure that you'll agree
I would give it all away for the chance to hear you say
I'll stay
Everything my life has meant to me
I would give it all away to hear you say (give it all away
to hear you say)

It's our chance to be I'm sure that you'll agree
You would give it all away for the chance to hear me
say I'll stay
