You lacked the courage from the start
A jagged edge that splits two hearts
We are the last of a dying breed
Pulling the plug on what you believe
These minds don't stop we never sleep
A killer instinct that burns so deep
Follow my lead as we sprint to the beat
Never mind the blisters these are warrior's feet

We're gonna take it back to when the world sang
When the world sang
When the world sang
In a world strained

So kiss me and catch this disease
Cause goods like this don't come cheap
Just suck it up before you swallow
Your pride tonight
I know it's hard for you to see
Some things are hard to just believe
You have no time to decide
(just swing) BREAK THE LIGHTS!

Pick it up put it down
You can love it or hate it
It's the hottest thing around
Took it from rookie to a seasoned vet
With your life on the line
This is what to expect
It's time to leave this life behind
No shades of grey
It's black or white
We know they won't make it out alive
It's the jungle
Only the strong will survive
