(Thompson/Foreman)

Don't get me wrong when I undress you with my eyes

Just tag along as I allure you with my sighs

Come on and hop aboard can't you see

We're just daydreamers

Don't fight the flow when I squeeze you in my arms

I've just got to know you see I'm taken in by your
charms

Is Bobby coming out to play daydreamers

24 hours be it night or day daydreamers

Don't start a fray when I express my thoughts to you

Just chuckle away should I explode inside my mood

Come on and hop aboard can't you see

We're just daydreamers

Is Bobby coming out to play daydreamers

24 hours be it night or day daydreamers

Don't get me wrong when I explore your points of view

Please carry on if I stare don't think me rude

Is Bobby coming out to play daydreamers

24 hours be it night or day daydreamers
