Inhale, exhale I'm tired of it  
I don't wanna breathe  
I just wanna leave  
Or I'll be stuck here till my soul flies  
Inhale, exhale I'm tired of it  
I don't wanna breathe  
What's the point me being here  
I just wanna leave  
Can you show me to the pain killer killer killer  
I've been searching for a pain killer killer killer  
Can you show me to the pain killer killer killer  
I've been looking for a pain killer killer killer  
Overload!

Overload!  
They want us to do as we're told  
Distract us from the truth so we can lose as they grow  
I put my life on the line that's just to let you know  
My Heads spinning heads spinning  
It's a overload!

You might see me behaving crazy  
You might see me behaving road  
Sometimes I wonder to myself what's going on am I  
all on my own  
Oh I can feel it something's going on around us  
But we just can't see it too many lights when the  
truth is needed  
You been playing games  
You are planning to destroy everything we have made  
Everything we come upon you leave it in a grave  
Truth is I don't wanna fly in the air  
The world I'm in is collapsing why am I here  
I need a pain killer and time to prepare!  
I swear!

Inhale, exhale I'm tired of it  
I don't wanna breathe  
I just wanna leave  
Or I'll be stuck here till my soul flies  
Inhale, exhale I'm tired of it  
I don't wanna breathe

Whatâ€™s the point my being here  
I just wanna leave  
Can you show me to the pain killer killer killer  
I've been searching for a pain killer killer killer  
Can you show me to the pain killer killer killer  
I've been looking for a pain killer killer killer  
Overload!

Masters of the system  
They make the decisions  
Weâ€™re programmed to obey  
Weâ€™re programmed to listen  
The masses are the victims  
They got us in this prison  
So now my heads spinning heads spinning  
Itâ€™s a overload!  
They want us to do as weâ€™re told  
Distract us from the truth so we can lose as they grow  
I put my life on the line thatâ€™s just to let you know  
My Heads spinning heads spinning  
Itâ€™s a overload!
