Baby I don't know what to say
But I know, I'm gonna get up out this hole one day
Every time I think about it I wanna go
I wanna leave this place but it's the best and I just can't
explore

I'm moving on
Moving on with you
Said I'm tired of looking back
Stuck in my rear view

I know that I've had too much to deal with in my life
And that had caused me so much strife
But I cannot keep holding on to all this pain
And no like Tina I can't stand the rain

I'm moving on
Moving on with you
Said I'm tired of looking back
Such in my rear view

Ooh baby, baby, baby, baby, baby
Um, I'm moving on
With you

I'm so, I'm so
Ready to make that first step
Towards freedom, towards everything I need
To conquer, In my life
Conquer forever

I'm moving on
Moving on with you
Said I'm tired of looking back
Stuck in my rear view
