VERSE 1-

Mmm man my mum was never ade of the money
Iron Maiden never running away from her sons and
daughters always had food and water
never knew how she afforded my Jordan's but bought
em
i wore em till water would leek through the rips
never looked poor like oliver twist never wanted more
or knocked on your door like i was a mormon
swore never to be down or caught in a rip
Ha when money came in it was gone with the wind
ona shopping list longer then the lord of the rings
Ha a sunny day you aint short of a thing
when ya born into a game holding four of the kings
Ha yeah believe it my dad was a musician
but bringing a bass drum to cook up in the kitchen
wouldn't feed us..with all his get rich scheming
feeding his demons life's a bitch
Ha to sky rocket he forgot all the people in his locket
for a profit leave another man rotten
notes in his pocket nailed in his coffin
cause yesterdays pain aint forgotten

Was always taught that the root of all evil

he who steals from the pocket of his people
eagle eyed survive in the dark
raveneous sharks welcome to the business
Oh i live this knocked off the hinges
our offspring addicted to syringes of money
axe wilding civilian children kill for
some Paris Hiltopn million dollar money
some of these kids live the sunniest life
still running from the law like Bonnie n Clyde
still deal still pedaling pills and rock
steal for what you got all the dollar bills you want

It makes the world go round it makes the world go
It makes the girls go down it makes the girls go
It makes the world go round it makes the world go
It makes the girls go down it makes the girls go
