(Verse 1)

Morning sun is pouring in, flowing on your skin.
You awake, I kiss your face, another day begins.
That kiss turns into another oh you know it happens
every time.
You smile, I throw away the covers, get up and close
blinds

I can make your nighttime anytime of day,
I can make your nighttime anytime you want it that way,
I can make your nighttime anytime of day,
I can make your nighttime anytime

(Verse 2)

Day in June picnic for two the summer suns up high,
Soft lips, sweet kiss, tears like warm red wine,
That kiss turns into another summer days just last to
long
You smile, I guess that means your ready so I turn that
music

I can make your nighttime anytime of day,
I can make your nighttime anytime you want it that way,
I can make your nighttime anytime of day,
I can make your nighttime anytime

(Bridge)

If you want it,
just say you want, thats all you have to do
Ill make that sun go down, and Ill raise up the moon

I can make your nighttime anytime of day,
I can make your nighttime anytime you want it that way,
I can make your nighttime anytime of day,
I can make your nighttime anytime
