When a cat look at me, Each eyes as an ocean
No questions, just an old life tree

When a fish swimming out, Hunting each bubble in sea
In the brain, just a simple melody

When I search around me, I'm not gold, I'm empty
I'll give my words to an old life tree

Bubbles are so round, There's no more meaning
I'll give my words to an old life treeWhyÂ ?

WhyÂ ? WhyÂ ?

When a bird fly away, By the lighthouse
Looking at the ship and starfish

Bubbles are so round, There's no more meaning
I'll give my words to an old life tree

WhyÂ ? WhyÂ ? WhyÂ ?
