Intro:

(Counting, counting the fucking sheep)
(Will not, will not get you to sleep)

[Verse] x2

By name by nature
He holds the streets with his blackened fist
Heart burns desire
For the one who can cage abyss

[Chorus 1] x2

We are all the first thing that comes to our heads
set aside the love for ourselves and share the... light!
Share the... light

Inhale your love, exhale your hate
Inhale your love, exhale your hate

Run into the night to gain up all your fight
A never ending circle that goes on and on and on.. and
on

[Chorus 2] x2

Counting, counting the fucking sheep
Will not, will not get you to sleep
This time, this time the ends never meet
Because the fallen are at their feet

Now that your king big shot not taking orders from
others
Man the troops to fight cloak and dagger, cheap shots,
air strike.
All you had to do was man up and let the sunshine in
but no it's too hard!
Your shutters are permanently shut, taking breath from
others cause your's isn't enough!
Enough!
Yaohw!

[Chorus 1]

We are all the first thing that comes to our heads
Set aside the love for ourselves and share the... light!

Share the... light

[Chorus 2] x2

Counting, counting the fucking sheep

Will not, will not get you to sleep

This time, this time the ends never meet

Because the fallen are at their feet
