Just before the chaos  
Last wish of hope brought the  
Awkward silence  
You cannot avoid this

A small taste Of my life  
A preview of what you will see  
So bring your friends  
To the party in the depths of hell

Take my hand tonight  
I'll drag you out of the light  
Don't be scared about this  
I know we should walk away  
But with you I can stay  
In this storm for days

Take away the pain  
Erease my memory  
After several shots  
I will turn up to be a monster  
Bye bye reality  
You saw the last of me

Take away the pain  
Erase my memory  
Take away the pain  
Erase my memory

Let's go!

Take my hand tonight  
I will drag you out of the light  
Don't feel sorry for this  
Forget The past and don't feel regret

Can we stay here just for a while  
For a moment before we die  
I know we should walk away  
But with you I can stay in this storm for days

Can we stay here  
For a moment before we die  
I know we should...  
I know we should walk away

I slammed the door closed  
I left you behind  
Our bond has broken  
Farewell it's time to go

Forgotten souls  
Will come alive

There's no way out  
This is the game of life

Take my hand tonight  
I will drag you out of the light  
Don't feel sorry for this  
Forget The past and don't feel regret

Take away the pain  
Erase my memory  
Take away the pain  
Erase my memory

Take away the pain  
Erase my memory  
Take away the pain  
Erase my memory
