

Nylon Beat "If"

Visit "[If](#)" on MotoLyrics.com

If I would't hear your voice no more
Then what am I supposed to do
For me it means a total silence too
If you had to walk in pouring rain
I'd follow you all the way
Time after time I'd do it all again
If you had to go to horizon
To the other side of Orion
In space our Love will find ourselves a home
If you come to me and tell a lie
I would believe until I die
I'd never ever even ask you why
If I'd see a tear fall from your eye
I'd catch them all while you cry
I'm going to build an ocean of my own
If you should go away and leave
Do you have to leave so totally
Please take along a little piece of me
If there's darker than all black can be
That's my color in case you should leave
A shade or gray would only sadden me
If there's darker than all black can be
That's my color in case you should leave
A shade or gray would only sadden me
