"Goodnight My City"

Visit "[Goodnight My City](#)" on MotoLyrics.com

Close my eyes, hear the sound of the changing
Saw the smiles, left behind as the day ends
Sleeping corners now, close the doors
Waiting for tomorrow, like it's never been here before

So goodnight my city, so goodnight my city
So goodnight my city, so goodnight my city

...by, broken mine, show the way
Eager eyes, satisfied as the day begins
...the corners now, close the doors
Promise you a time, like you never had before

So goodnight my city, so goodnight my city
So goodnight my city, so goodnight my city

This place it gets to me,
I see everything I done
So goodnight my city, so goodnight my city
So goodnight my city, so goodnight my city

...be, let nature take its course... walls
So goodnight my city, so goodnight my city
They said I've seen nothing
And I ask...
...be, let nature take its course... walls
And it's ... surrounds us...
But believe I've seen it all, they say I've seen nothing
yet
And I am still.
