"Dancing In The Headlights"

Visit "[Dancing In The Headlights](#)" on MotoLyrics.com

You can see the dust from the trucks in the sunset
Heading out down Lazy Branch Road
High beams cutting a trail through the hay fields
Crossing the creek where the fuzz can't go
Make a few calls and the girls come running
Guess me and the boys have got it going on
The way they're looking all summertime sexy
Can make a party last all night long
We got the drink drank, we got the tracks cranked
We got the bass down low (whoa)
Girls got their shaker shaking, a buzz in the making
They're going out of control (whoa)
They're getting with it, burning hotter by the minute
You know you got the perfect night
When you got the girls dancing, dancing, dancing in
the headlights
Bodies moving to the beat of the music
Shadows dancing in the top of the trees
I can see you baby rocking that spotlight
Lost in the moment, caught in the beam
We got the drink drank, we got the tracks cranked
We got the bass down low (whoa)
Girls got their shaker shaking, a buzz in the making
They're going out of control (whoa)
They're getting with it, burning hotter by the minute
You know you got the perfect night
When you got the girls dancing, dancing, dancing in
the headlights
We got the girls dancing, dancing, in the headlights
Dancing, dancing, dancing all night
We got the drink drank, we got the tracks cranked
We got the bass down low
Girls got their shaker shaking, a buzz in the making
They're going out of control, (whoa)
They're getting with it burning hotter by the minute
You know you got the perfect night
When you got the girls dancing, dancing, dancing in
the headlights
Dancing, dancing, dancing in the headlights
