All those people their hearts are breaking as I'm  
making my  
Way to the exit and the taking of you  
A little shock value will do us all right and like  
Electricity there is a light  
A little shock value will do us all right and like  
Electricity there is a light  
To all the non believers  
The self doubters  
The cross bearers are laid to  
The misleaders  
The self defeaters  
The damn cheaters are laid to rest  
I'm dead dead serious about this about this  
I want to have the dirtiest wedding  
Your heart is racing and your palms are sweaty  
Something old  
Something new  
Something borrowed  
Something blue  
And for me it's you
