Verse 1:

You're the one that spoke the light into darkness,
You hold the world in the palm of your hand,
So take my emptiness and turn it into something,
Like only You can

Chorus:

Won't You breathe, breathe your breath and let me live
again,
Cleanse, cleanse my heart from within,
Won't you speak, speak just one word is all I need,
Break, break these chains and set me free

Verse 2:

You sent your word and healed our diseases,
And by His stripes was part of Your plan,
So take my emptiness and turn it into something,
Like only You can

Chorus:

Won't You breathe, breathe your breath and let me live
again,
Cleanse, cleanse my heart from within,
Won't you speak, speak just one word is all I need,
Break, break these chains and set me free

Bridge:

I need more of you
Nothing else in all this world will do
(6x)
