[Verse 1]

I don't give a fuck about your problems, I got my own
They say I act way to crass and I'll end up alone
I told 'em I would make it
There's nothing that can stop me
And I'm lookin' so clean, but I'm feeling so sloppy
I hope you can see everything in me
There is a dark side within me
Sometimes we fight, we're fine
I hope everything will be alright
So, I'm a rap my broken heart out
From the sun until it's dark out
And no I cannot stop now
'cause I'm driving with the top down
Tryin' a make this a reality, but it's just a fallacy
'Cause right here with you there's no place
I'd rather be
I'm just tryin' a get it, get it
'but sometimes I need some help
Just forget it, get it
'I'm a do it by myself
They told me stop, I told them, 'eno'
They told me stop, I told them, 'ego'
They told me rock, I told them, 'eroll'
I'm on top the totem pole
Woah, woah, we gon' take you for a ride
Woah, woah, we gon' do it all tonight
Uh-oh, I just told another lie
So, I'll deny till I die

[Hook]

I'm talking, can you hear me?
I promise, you don't scare me
I know my other side, I don't hide
'Cause I...
I'm not afraid of you, you're not afraid of me
Just look me in the mirror, tell me what do you see
I see a monster, I see a giant
Maybe 'cause I am David and Goliath

[Verse 2]

You don't even know the half

â€˜Cause Iâ€™ve been waiting around for you to get
back
Iâ€™m incomplete, down on my luck
Youâ€™re always there to bring me right back up
I got 99 bitches, and ainâ€™t none of them problems
And even if they were I got a solution to solve â€™em
Whatâ€™s that? Fuck bitches, get money
And laugh like everything is always funny
But, but then I wanna wife them, and I donâ€™t even
like them
Honeymoon them, give them credit cards
And tell them thereâ€™s no prices
They tell me Iâ€™m the nicest, and I feel like good guy
And thatâ€™s all in the nick-of-time for us to say our
goodbyes
Momma where did I go wrong?
Iâ€™ve been flattering myself all along
And it feels so right, but they tell me itâ€™s so wrong
If I ainâ€™t feeling me, then who gonâ€™ feel me, feel
me?
As long as I keep it real and remain the real me, Iâ€™m
a be alright
[Refrain]
I donâ€™t give a fuck about your problems, I got my
own
They say Iâ€™m just way to crass and Iâ€™ll end up
alone
[Hook]
[Chant]
