Are you busy  
Baby are you busy tonight  
Are you busy  
Baby are you busy tonight  
Are you busy  
Please don't be busy tonight

I've been waiting while the whole world gets to you  
I've been patient got my place in line  
I know you love me but you don't know you do  
How can you tell if you won't give it some time  
Let me make your mind up  
Hold you till my time's up  
Baby don't you tell me that you're busy tonight  
Say you've got a fever  
Say you need a breather  
But baby please don't be busy tonight  
Can you forget all the others you've known  
We'll make this turn out right  
We'll close the door on a world of our own  
And the heat of our love will light up the night  
Let my love surround you  
Now that I have found you  
Baby don't you tell me that you're busy tonight  
Give them any reason  
Say you're out of season  
But baby please don't be busy tonight, tonight  
When you're around I feel you watching me  
Your eyes are saying you're still unsure  
Why be afraid of something that's just got to be  
Give me a chance to make you feel secure  
Let me make your mind up  
Hold me till my time's up  
Baby don't you tell me that you're busy tonight  
Say you've got a fever  
Say you need a breather  
But baby please don't be busy tonight (tonight) tonight  
The heat of our love will light up the night  
Let my love surround you  
Now that I have found you  
Baby don't you tell me that you're busy tonight  
Give them any reason

Say you're out of season  
Oh baby please say you're busy  
Busy with me tonight  
Oh tonight  
Oh tonight  
Are you busy  
Baby are you busy tonight  
Are you busy  
Baby are you busy tonight
