I'm hidin' I'm slidin'
On every corner think I see your face
Hopin', past copin'
I'm in an awful way

I got to find ya find ya find ya 'fore the night is through
Find ya find ya find ya no one else will do
Make me feel those things you made me feel before
Open up your heart, open up the door

Chorus:

I gotta find the one I love, oh, oh, oh
I gotta find the one I love, nobody else will do
Find the one I love, oh, oh, oh
I gotta find the one, find the one, find the one I love
Whoa, whoa, I'm in an awful way
Whoa, whoa, must have you back today
Whoa, whoa, I'm gonna make you mine
Whoa, whoa, it's just a matter of time
Searchin' in shadows
I'm madly checkin' every face that I see
Hopin' some magic
Will bring you back to me
I dream of you nightly
You showed me heaven then you took it away
Burnin' so brightly
You turn the night into day
Find the one I love, oh, oh, oh
I gotta find the one I love
Find the one I love, oh, oh, oh
I gotta find the one, find the one, find the one I love
Forgive me woman, I'm losin' control
I got the love down deep for you in my soul
I woke up this mornin', I thought I was dead
Tonight I realize I'm goin' out of my head
Chorus
Find the one I love
