"Love This's Love"

Visit "[Love This's Love](#)" on MotoLyrics.com

Darlin' cross my heart
I have but one wish
We'll never part
Believe me, I'm never gonna let you down
Whenever you need me
I'll be around

Love this is love
Can you tell that it's real
All I know is that it's feelin' like
Love, this is love, this is real

Without you I'd be a lonely guy
It's straight from my heart, girl
Never say goodbye
Hey baby from the look in your eyes
I feel a fever beginning to rise

Cause love this is love
When your heart's on fire
And you're filled with desire
It's love, this is love, this is real

Why should I resist
When your kisses are like magic
Your lips taste sweeter than wine
If you leave I believe
That it really could be tragic
I'd be going out of my mind

Oh baby, never gonna let you down
Whenever you need me, I'll be around
Without you I'd be a lonely man
It's straight from the heart, girl
United we stand

Love, this is love
Can you tell that it's real
All I know is that it's feeling like
Love, this is love, this is real

This is it
There ain't no stopping it
Don't quit
Put all of your heart in it

Baby, ooooh, baby, ooooh
Without you, I'd be a lonely man
Ohhh
United we stand

Love, this is love
When your heart's on fire
You're filled with desire
It's love, this is love, this is real

Love, this is love
Can you tell that it's real
All I know is that it's feeling like
Love, this is love, this is real
(repeat)
