Nothing that come between the face , I control my
breath
But my heart reveals a maze me , go back to the
beginning
I try to look ahead , but because im trained to caught
oxygen through my nostrils
Feel my heart like begin
Sinful wore the veterans wore alter my mouth

Its just a thought blackning
As sticking worm to steal the mere presence from me
And to steal my turn of path
Throwing powerful comes my wrath!

(I do the dance) X2

Never see me such weakened
Says reality
On my will to trash the end
Beauty quiche to the end

She will take my body
Care for me and my food
So as precise
Precise is fast

Step by step I enter the void
Smile to the silence around me
Through my nostrils I contain my rhyme
For mere own taste
different shape and dimension , distorted visions
and real perception

Someone wants me to fly

Impossible alternative, I finish my path
Tender and the past accompany my victory
Why I burden
They suck the air delicately from me

This smile , this scent , do you fill, to your lungs?
They steal my oxygen

Only in the void I can rest

Step by step I enter the void
Smile to the silence around me
Trough my nostrils I contain my rhyme
For mere own taste

Different shape and dimmension
Distorted visions and re-up perceptions

Someone wants me to fly
