"Slow Motion"

Sunset sunrise open your big blue eyes
If you go too fast you'll pass up the best things in your
life
My heart ain't into rollercoaster rides
I need a lifetime slow climb if I'm gonna get it right

[Chorus]

Baby whatcha thinkin' do you wanna be with me
And maybe we can see where this thing goes
I'm talkin' 'bout, love in, slow motion

Crush touch rush into lust and call it love
Thinking right now somehow might work out but never
does
Forever's more to me than just a word
I'm on a slow road don't go racing rolling past the
curves

[Chorus]

Baby whatcha thinkin' do you wanna be with me
And maybe we can see where this thing goes
I'm talkin' 'bout, love in, slow motion

I want loving, I want living, to be stretching every
minute
To the limit with no looking back and wishing and
regretting
I'm not letting myself go until I feel that sweet emotion
Talkin' 'bout, love in, slow motion
Love in, slow motion
Love in, slow emotion
Talkin' 'bout, love in
Talkin' 'bout, love in, slow
Talkin' 'bout, love in, slow
Baby whatcha thinkin' do you wanna be with me
And maybe we can see where this thing goes
