(Hook)

Swinging in the backyard  
Pull up in your fast car  
Whistling my name  
Open up a beer  
And you say, "Get over here  
And play a video game."  
I'm in his favorite sun dress  
Watching me get undressed  
Take that body downtown  
I say, "You the bestest."  
Lean in for a big kiss  
Put his favorite perfume on

(Verse 1)

Yung ave:

Headband got my eyes low  
Bumpin' Kanye that drive slow  
That pearly white keeps pulling off  
Gripping wood grain I crawl slow  
Them raw's hows they burn slow  
Top shelf in my torso  
This young native be moving fast  
I don't even own a fuckin' horse tho  
From no shoes to them retros  
Give a fuck about the money cause I had none  
Murder one this game quick  
Young native get your raps up  
Can the cannon picture  
This kush immaculate  
Bud smoking just bring me happiness  
Bitterness just leads to tragedy  
Fuck the rap game have it singing like the sample is

Efcey:

Yo, this life's a bitch so deal with it  
Like I would say, get that motive in  
I lived in a trailer I never would blame none  
I'm never ashamed of wherever I came from  
When I need to go man I gotta go  
And of course I need hope but I know that I'm dope  
Still I'm rising the slope now who guessed I would  
choke  
That just made it provoke all the music I formed  
Why would I wanna give it all for you  
If bitch you lied and denied the truth  
Don't act a fool cause it's practical  
You was valuable it was magical  
Life is a bitch and I treat her like one  
So I hope in my music you listen and bump  
When I'm standing on stage I'll make sure that you're  
pumped  
And actually capture till enough is enough
