Let it go and leave it all behind
Make your move and they will keep it down
You can be sure

It ain't over thill the word is out
It ain't over till a second-hand doubt
It ain't over thill everyone promises you it's a good
thing
It ain't over till you decide
It ain't over till a second-hand doubt
It ain't over till everyone promises you it's a good thing

Might as well be something I forgot
Nohting good can come from all this luck
I'm shocked

And I will take it easy
And I will let you find all your ways yourself
