Who's that girl hanging round with us  
She parks her beak and talks too much  
Drinkin' beer cuz he says it wins  
Says he likes beakin' with his friends  
Naked girls and little yellow pills  
Sounds like fun to me  
He called a cab a 6 am  
To find some hooker on the street

What's your name she's not my friend  
Skinny legs and big fat head  
Feel insane I'm back again  
Sit around the table feelin' like a fucked up wreck  
All wrecked, all wrecked  
All wrecked, all wrecked

In the morning I can't do anything  
I lay in bed with my head spinning  
I feel so bad and my phone just rings  
I feel like god said no to me  
We'll drown in beer we have no liquid fear  
Watching spice all night  
Drunken fools who sit kiddy pools  
Beaks and booze all right
