I want some, we want some  
When we gonna get ours  
We're not dumb you're full of shit  
We're sick of it  
Put your money where your mouth is  
And do it quick

I'm so sick of waiting all the time  
Any fucking day now,

No more talk, want action verbal masturbation  
It's like fucking all night with no ejaculation  
Come on be a pal how 'bout a reach around  
When we gonna get ours

I'm so sick of waiting all the time  
We're tired of the delays in our lives  
Any fucking day now  
Any day-any day-any day

Feeling like a reject, gimmie some respect  
Infect with neglect, speak our mind object  
Overruled feeling like a fool  
When we gonna get ours

I'm so sick of waiting all the time  
We're tired of the delays in our lives  
I'm so tired of waiting I'm so tired of waiting  
I'm so tired of waiting all the time  
Any fucking day now,  
Any fucking day now,  
Any fucking day now
