"Break Your Heart"

I'll get in deep when you fall asleep
You'll think of me obsessively
I'm into mind control and like a voodoo doll.
I'll bring you pain in that stomach pain

[Chorus]
Anyone can play a part
But I can break your heart
Break your heart
I can break your heart
I can break your heart

I'm like nausfuratu, and when I want you
I'll drink you in drain the life from you
It's such a treat vulnerable and weak
I love the game I'm quite the freak

[Chorus]

Swore I'd never break your heart
But shit happens love boats disembark
I know your pain the emotional drain
A shot boom to the chest at point blank range

[Chorus]

Anyone can play the part
But I can break your fuckin heart
Break your heart
[Repeat]
