"Clocks"

When did they start letting kids in here
I've been coming for years
The cynical man looked like god
Himself had let him down

[Chorus:]
That's life till now or they say so
Are you hearing what you want
Just watch clocks

Crazy lady talked a lot
What she thought is what she lost
Her soiled stocking start to sag
As her heart rots in a shopping bad

[Chorus]

It's boring.
It's lonely can't you see all the warning signs
It's boring.
It's lonely can't you see all the warning signs

Your having too much fun without me
Can't you show a little misery
I lay in bed and laugh out loud the
Age of miracles hasn't passed

[Chorus]
