There was something inside  
a truth realized, a reason to survive  
but I can't hear your call  
in fact don't hear from you at all  
now wolves encircle me  
and you don't intervene  
now wolves encircle me  
try to run, chased for miles, then struck when I am  
fatigued  
can't find strength to fight this off  
This animal's consuming me  
I feel teeth sinking in my back,  
My peace of mind has gone from me  
don't know if I'll ever get it back  
I struggle through the night  
we struggle through the night  
theres no end in sight  
now nothing restores my peace  
comfort robbed by constant piercing of their teeth  
I try to refuse it but it takes its hold  
some resist their demons mine just keep me cold  
questioning, filled with confusion  
I reject your love for fear it's an illusion  
joy will never sing my name  
silence my melody of shame  
I just wanted to be free  
I just wanted to be free  
free
