Nothin' else to do but sit around and watch the tube  
You know he's gettin' crazy pissed he's got to get away  
Time and time again he gets that feelin' going through  
His head, you know his wife is mad age and she won't  
let him go  
Feelings are creepin' up again  
Social drinker with all your friends  
That's because...

[Chorus:]

All your friends are dipsomaniacs  
All your friends are never sober  
All your friends are dipsomaniacs  
All your friends are never sober

They're in the gutter now reachin' down.  
Took a step outside he grabbed his board and grabbed  
his radio,  
He went to paddle out but the surf was down.  
You gotta watch your back, wonder when the hell she's  
watching him  
You need a little space to avoid the insanity
