"Drool"

Visit "[Drool](#)" on MotoLyrics.com

Suction, pulling me down to corruption
You wanna talk about destruction
Things lost forever
Possession, you wanna meet my obsession
You ever felt the castration
That follows penetration
So you find you're a fool
Don't drown in a bowl of drool

[Chorus:]

Just because you're not where you wanna be
Just because you wanted more than this

I don't think, I know how this will end.
Population, hunger and the starvation.
The wreek of desperation
We can't feed the whole world

[Chorus]

I know how you feel
I've been there before
I know how you feel
Compensation, loaded with medication
The mind's transformation
My reality check bounced.
Degradation, self-inflicted segregation
We need more than demonstrations
We can't be forced to get along

[Chorus]

I know how you feel
I've been there before
I know how you feel
