Kick my ass, I'll be back,  
A masochistic goal, massive heart attack  
She knows what to do to piss me off  
And I still find it irresistible  
Bring up my pills and juice  
Clean me after I go poop  
I'm going down the mental slide  
I'm losing it but what a ride

[Chorus:]  
I'm going down in flames  
(Going down in flames)  
Stupid look stuck on my face  
(You look stupid)  
I'm going down in flames

No more thoughts in my head  
Life's so easy from a hospital bed  
You've got your ways to keep me here  
Now I find my happiness pharmaceutical

[Chorus]

Better off staring at the wall  
Than trapped within desire's claws  
If stupid cupid comes around  
Get a gun, shoot him down  
It's irresistible  
Bring up my pills and juice  
Clean me after I go poop  
I'm going down the mental slide  
I'm losing it but what a ride  
Demerol and morphine diluted makes my life serene  
Empty thoughts, empty heart  
A black slate, a fresh start

[Chorus]
