"Have A... Day"

Visit "[Have A... Day](#)" on MotoLyrics.com

My heart fills with disgust
A little more every day
The taste of deaths not sweet
No more honor among thieves

[Chorus]
What's the problem with you!
What's the problem with you!
Take my wallet, take my ride
Just don't take my life
Get down, get down
Get down, get down

The real O G's were killers
At least they had respect
Canary in your mouth
At least you knew what it meant

[Chorus]

Gun in your back we're under attack
Raise your hands in the air cuz they just don't care
Have a nice day enjoy a car jack,
What do you mean what am I looking at..

Like the old west, a bullet in the chest
Is as easy as A*B*C
A senseless untimely, rest in peace
