My face still wet from the spit you left  
Then you turned your back on me  
I gave my heart and you gave me the finger  
You're triumphant salute I remember

This sucks so much, the pain you gave  
Kept me from sleep, drove me to drink  
Made me a creep  
Gotta let it go, on with the show  
Be strong keep it together

We fight and fuck then make up and make love  
The cycle never ends  
Am I too stupid or stubborn to see  
This insanity's driving me

[Chorus]

Keep it together

[Chorus]

Choke up a smile and fight back the bile  
This ain't good for me  
I get through  
Thanks for beating it into my head  
I'm such a sucker... Fuck me
