"Kill"

Visit "[Kill](#)" on MotoLyrics.com

It isn't funny anymore
It's gettin' crazy now
This is America
Hey look it's crumbling down
I think we really got a problem here
The solutions oh so clear
Put their skulls on posts around the foe
Kill the space between their ears

Kill, kill, kill, kill all the violent people
Maybe that would do the trick
Hit them in the head with a 2x4
Would ya quit being such a dick
Maybe that would do the trick
Now we're really gettin' sick

Turn it up way past extreme
Clearly hear the silent screams
No concept of respect
There's nothing left to wreck
I think we really got a problem here
The solutions oh so clear
Take a cork screw to their A.C.L.
Help them to take a stand

Ignorance is tolerance
Tolerance is bliss
This ain't going away is it
This ain't going away

Is it to prove you don't matter
Or is it just that you don't
Destroy the inch of life that you rent
Your disease overflows

I think the answers to the questions fear
And we're all guilty as sin
In the mirror find your enemy
Back into the knife and spin
