"Shut Up"

Visit "[Shut Up](#)" on MotoLyrics.com

Yesterday I said today,
But that didn't work out
I love you. I'm not good for you
I kind of slept with your friends
Don't make excuses

[Chorus]

If I had the time I'd sit and watch you cry
If I had a dime for all the times I lied
You've caused too much pain and I'm not one to blame

Analyze too much.
Think and then shut up.
The car crushed, it hit the wall,
Nobody was hurt
The house was robbed they took a lot
Nothing of value
Don't make excuses

[Chorus]

She took a lot of drugs before,
Now she's oh so clean
She drinks a bit
She drinks a lot
She's just partying
Don't make excuses it sounds so stupid!

[Chorus]
