Sophisticated lover, you want something more
There's nothing to remind you we ain't keeping the
scores
Tell us something different, tell us all
Try, I take it as it comes,
Try, I play it on the stereo
I'm not afraid no more

Sophisticated lover, you've got things on the side
The summer is great, all this aching time
Try, and take it as it comes
Try, and play it on the stereo
I'm not afraid no more

Oh, I know there's more to this
I know, there is more to this

Sophisticated lover, you want something more
Something to remind you we ain't keeping the scores
Try, and take it as it comes
Try, and play it on, and play it on the stereo
