1000 volt blast, I was shocked
On the couch in underwear and socks
Feeling like my brain is fried
Starin' in stereo at lights
I couldn't hear a sight

No energy to fight the fight
Words ringing in my ears
Don't change your destiny for me
And don't be waiting there for me
It's not your job no need to pray for me

Paralyzed stuck in my room
Like mr. reznor I feel the gloom
Get some rope it's swing time
Phone rings answering machine
I listen patiently why are you calling me

Words haunting my head
A rocket ship couldn't give the space
I need between me and your face
I just wanna be left alone

Jelled out 24 hours a day

Regretting every word I said
Mouth does flap
What the devil got in me
Couldn't get laid up a chickens ass
All alone I'll throw a jack
Getting down on my bad self
Think I spoke my mind too much
I really should shut up
The verbal noose has got me hung

Words louder than action
Don't change your destiny for me
And don't be waitin' there for me
It's not your job no need to pray for me
A rocket ship couldn't give me space
I need between me and your face

I just wanna be left alone
I just wanna be left alone
I just wanna be left alone
