Baby how you doing
Are you waiting up for me
I got you where I want you
I know it's not easy
Baby how you doing
Are you nervous just like me
It's coming down, coming down
In a way you've never seen

No I don't wanna be
The one to tell you
Don't make it so hard on me

No I don't wanna be
The last to tell you
The truth about that girl

Is it any wonder
That I am still afraid
I know I did the right thing
At least that's what they say
Any day now
I know it won't take long
Before you see the light of day
Cause it's coming on so strong
