"Where's The World"

Visit "[Where's The World](#)" on MotoLyrics.com

Mountains touch dirt skys
Land striped bare and dry
Malaysia. Asia a place I'll never see.
I want what you got

[Chorus:]
They're not going to change
The world would be the same
We are not going to change
They're not going to change
For you! For you!

Oil coats the land.
Fish don't understand
Exxon. Alaska,
Will it ever be the same?
I want what you got.

[Chorus]

Another species gone
Landfills drop a bomb
The amazon a lost song.
The things I'll never see.
I want what you got.

[Chorus]

Not Not gonna change
[Repeat]
