"Whiners And Losers"

We came up exactly the same.
Stop creating your own reality
Can't you see there's nothing to gain
Your excuses are so weak
It's yourself that you mislead

[Chorus:]
You don't have to beat the system
Victim of your own resistance
Realise it's you that fell behind
I'm not the white devil

I can't keep you down.
Swig your Gutterbuddy, snivel about the world.
Help keep hate alive, living a stereotype
Playing the blame game until the day you die

[Chorus]

Don't blame the government
After all who votes them in
There's right there's wrong
Cops and pigs
You give you'll get respect
Gotta keep yourself in check
All the whiners I fucking hate them all

[Chorus]
