I watched you burn by yourself.
Hoping I could be to the one,
to bring you back...To another road.
There's so much in this world
that you've never experienced in your life.
Everything was just taken away,
from all your happiness....
Just leave it alone.....Just leave me alone.....

Fuck you I will.....and I will.....
Fuck you I will.....and I will.....

There's so many things, that I wish I could do for you,
to take away the pain. You just wanted to find
someone that you could hold until you heart explodes,
but you don't know what I'm going through.
It's all the same, just another ploy...
To make this all a game and I absorb the pain.
What am I to do with someone that loses sight of
everything
and falls away from me?

So why do I feel like a suicide?
You never wanted to fight, you never wanted to try.
So why do I feel like a suicide?
Give me back my life! I hope you die!!!!

and I never learn! Just waiting for my time....
and I never learn! Just waiting for my time....
One more time before I die!

So why do I feel like a suicide?
You never wanted to fight, you never wanted to try.
So why do I feel like a suicide?
Give me back my life! I hope you die!!!!
I hope you die! Give me back my life!
I hope you die! Give me back my life!
I hope you die! Give me back my life!
I hope you die! Give me back my life!
